NEW AND IMPROVED!

**A HIGHLY COMPETITIVE, ALL-INCLUSIVE TRADESMAN INSURANCE POLICY FROM MILES SMITH.
NOW INCORPORATING YOUR CLIENTS' COMMERCIAL PROPERTY NEEDS**

At Miles Smith, we're all about providing something extra for our brokers. And we think our new tradesman policy does just that. You need only listen to commercial radio to know that there are plenty of insurance companies that provide all manner of tradesman policies. But how many of them package everything up into one comprehensive and highly competitive policy? Not many.

Well, we do. Unlike most other tradesman schemes out there, we bring together employers' and public liability, contractors "all risks", plant & tools and commercial property insurance into one scheme. After all, tradesmen are busy people, and they (and you) really don't want the hassle of buying all the cover separately.

The scheme has been designed to include all major construction classes and cover businesses with a written health and safety policy and formal training plan for employees. Its sweet spot is where the wage roll is less than £1 million or the turnover is less than £2.5 million. But, fear not, if your client's business exceeds these limits we have other in-house schemes to cater for this.

Our in-house underwriting team boasts a wealth of experience, a dedicated focus to customer service and fast turnaround times when you need them most.

We think it's the future for tradesman insurance and we'd love to show you why.
